This is UNEVALUATED  
Information

SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

1. There is a large repair shop on the Székesfehérvár-Sóstó airfield. It is very well equipped, and is called the Aeronautical and Motor-Mechanical Vocational School (Repülő és Motorszerelő Szakiskola). About 500 students are being trained there to become flight mechanics. The workshop is also engaged in repair work at the airfield, and has the capability of doing major jobs, such as changing engines. 25X1
  
2. The former Danuvia Motorcycle Factory, in the vicinity of Mohai Street (also called Csöri), has been modernized and enlarged. Formerly the factory produced exclusively tommy guns at the rate of about 500 daily. Since 1952 it produces only engine blocks for motor vehicles, motorcycles, and aircraft. 25X1
  
3. On Seregélyesi Street, on the premises of the former Maszobal Company, there is a factory which produces:
  - a. Aluminum blocks shaped as shown below, weighing about 70-90 kg. 25X1

  - b. Aluminum plates, one meter square and one by two meters, as well as plates of various shapes required by the aircraft industry. The factory does not produce aluminum tubes or rolled products. 25X1
